Hunger

815 million people were affected by hunger in 2016 alone—that's over 11% of the world's population. 155 million children under age five are stunted due to chronic malnutrition. Lions and Leos serve to improve human flourishing, and we see how the global hunger and nutrition crisis bears upon our local communities. We believe community improvement depends on the thriving of its members. Our strategic objective is to ensure that all community members have access to nutritious foods.
